Subject: Sub-Committee Structure of the ELINT Committee.

PROBLEM:

To consider sub-committee structure requirements for the ELINT Committee.

DISCUSSION:

"The Chairman explained that the primary problem at this time is the status of the Special ELINT Advisory Group (SEAG) which had supported AFCIN-Z in the area of sensitive collection methods. The Members generally agreed that the function performed by SEAG was required, but did not reach any agreement on how SEAG should be tied into the USIB structure.

DECISION: (18 December 1958)

To defer resolution of the future organizational status of SEAG until the next meeting to permit Members further study of the problem.

DISCUSSION:

The Chairman discussed the statement of requirements which had been developed by an ad hoc requirements panel of the Advanced Research Projects Agency (ARPA). He noted that the requirements were jointly submitted and considered by several member agencies and departments of USIB, especially members of the Scientific Estimates and Guided Missiles Committees. He added that these requirements constitute a specific expansion of the general intelligence directives stated in DCID 1/3, but do not change existing agreed priorities. He tabled a suggested memorandum for forwarding these requirements to USIB.

The Defense Member stated that he had been informed that the requirements had not been finalized by ARPA and suggested that the final approved list be submitted to USIB by the Defense Department USIB Member.

The NSA Member stated that national intelligence requirements are needed for planning in this area, but felt that such requirements should be validated by USIB.

After considerable discussion on procedures for the submission of requirements to USIB, the Committee members agreed to defer action until the next meeting. However, the Members agreed to review the substance of the requirements, and submit comments to the Chairman prior to the next meeting.

DECISION: (18 December 1958)

To defer action on the matter until the next meeting, at which time ARPA should have formalized their requirements and submitted them officially to the Committee. (Direct or through Executive Secretary, USIB)

To review the requirements as circulated (USIB-EE-9.4/13) and submit substantive comments to the Chairman prior to the next meeting.
